- **Spikeless/Ultralight**
- **Work, Play or Run With Confidence**
- **Ten Times The Gripping Points As Any Spike Based Traction Device**

## INSTANT CONFIDENCE ON PACKED SNOW AND ICE

The Yaktrax Pro will give you the same solid, predictable grip you are accustomed to feeling on dry surfaces. Unlike other shoe traction devices, Yaktrax will not damage carpets or most flooring material.

When you walk or run with the Yaktrax Pro, the scientifically engineered horizontal and vertical coils place hundreds of biting edges in direct contact with the ice beneath your feet. Yaktrax create a solid grip by way of our exclusive SkidLock coil system. As you step, each tiny SkidLock coil presses downward, becoming embedded into the ice below. As you transfer your weight onto your foot, hundreds of SkidLock surfaces squeeze into the ice providing you with stability in all directions: forward, backward and side-to-side. When you lift your foot, the SkidLock coil system stays snugly with your shoe, offering unhindered ease of movement.

You will move about naturally, There's nothing new to learn, just walk as you normally would and experience stability on ice and snow like you have never felt before.

**WORK**

**RUN**

**PLAY**

# WHY THE YAKTRAX PRO WORKS

- Yaktrax Pro can be worn in temperatures as low as -41 degrees farenheit.
- Durable natural rubber blend elastomer has memory and will return to it's original shape.
- Removable performance strap will help keep your Yaktrax in place.
- Outerband conforms to the length and width of your boot or shoe.
- High strength horizontal coils provide forward and backward stability.
- Vertical coil pattern provide side-to-side stability.
- Heel tab provides easy on and off.
